

ZOMETEK LITE DECK TILES

product information

ZomeTek bamboo composite decking is made by mixing natural bamboo fibers with recycled HDPE plastic and additives to prevent mold and mildew. This construction-grade material is a strong, durable and moisture-resistant composite, engineered to endure abuse of all types including rain, wind, snow, sand and heavy traffic.

installation information

SNAPS TOGETHER IN MINUTES!

Deck tiles can be installed on any solid surface (concrete, asphalt, tile, brick) that has proper slope to allow for drainage.

GENERAL INSTALLATION TOOLS

- Circular Saw or Miter Saw with 60-tooth carbide tipped blade
- Jig Saw or Band Saw
- Mallet
- Pencil
- Tape Measure
- #1 Phillips head screwdriver or bit
- Pieces of Cardboard (12"x12")
- Scissors

INSTALLATION INSTRUCTIONS & DEMOS

Available at www.zometek.com
Demos also available on the ZomeTek video series on Youtube.com

installation tips

- Before installation, make sure the deck or patio is structurally sound and meets local building codes.
- Proper slope is required for drainage.
- If installing against an existing structure, start away from the structure.
- A thorough cleaning of the decking after installation is necessary.
- Always protect yourself when using power tools.
