

## product information

ZomeTek bamboo composite decking is made by mixing natural bamboo fibers with recycled HDPE plastic and additives to prevent mold and mildew. This construction-grade material is a strong, durable and moisture-resistant composite, engineered to endure abuse of all types including rain, wind, snow, sand and heavy traffic.

## installation tips

- Before installation, make sure the deck or patio is structurally sound and meets local building codes.
- The joists must be a maximum of 16" on center.
- Proper slope is required for drainage.
- xBEAM Deck Planks can be installed by either face-screwing or blind screwed/clip installation.
- A thorough cleaning of the decking after installation is necessary.
- Always protect yourself when using power tools.
